

# HP Color LaserJet Pro MFP M479dw (W1A77A)

## Overview

**The HP Color LaserJet Pro MFP M479 -- focus your time on growing business and staying ahead.**

Winning in business means working smarter. The HP Color LaserJet Pro MFP M479 is designed to let you focus your time where it's most effective—growing your business and staying ahead of the competition.

### **Built to keep you—and your business—moving forward**

Scan files directly to Microsoft® SharePoint®, email, USB, and network folders.[1]

### **Best-in-class security--detect and stop attacks[6]**

A suite of embedded security features help protect your MFP from being an entry point for attacks.[6]

### **Simply designed to uncomplicate your day**

Set up this MFP fast, and easily manage device settings to help increase overall printing efficiency.

### **Sustainability is smart business**

Avoid frustrating reprints, wasted supplies, and service calls using Original HP toner cartridges.

[2] In box cartridges yield ~1,200 color composite (C/Y/M) and ~2,400 black pages based on ISO/IEC 19798 and continuous printing. Actual yields vary considerably based on images printed and other factors. For details see: <http://www.hp.com/go/learnaboutsupplies> . Pages may vary based on customer printing conditions.

[3] Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty. Power consumption values typically based on measurement of 115 V device.

[4] Toner cartridges designed for distribution and use within a designated region only; will not work outside of designated region.

[12] Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.

[13] HP recommends that the number of pages per month of imaged output be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period

[15] BA TEC is equal to Best TEC. Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty. Energy Star value typically based on measurement of 115V device.
